

Fast Track Cities Leeds Roadmap 2025-2030

The road to zero new HIV, viral hepatitis & TB infections - zero deaths - zero stigma

System wide partnership commitments

Lead across boundaries

Engage system leaders to champion the agenda across all organisations

Innovate

Health Improvement Fund to support collaborative initiatives and projects.

Communicate & Engage

Put people at the centre of all work. Scrutinise the data and respond to evidence. Showcase achievements and share learning.

Testing & Prevention

Scale up accessible, opportunistic testing. Influence behaviour change and improve access to prevention methods across all communities.

Treatment

Ensure rapid access into treatment and care. Support people to remain in treatment..

Stigma

Community Micro Grants to support local initiatives addressing stigma. Workforce development opportunities to end misinformation and aid understanding.

Collective actions

2030 >

Leeds will maximise the value of the FTC partnership, working towards:

- collaboration on outreach, offering opportunistic tests for HIV, viral hepatitis. and TB together, where possible
- collaboration on workforce training to include info on HIV, viral hepatitis and TB, to address knowledge gaps & stigma.
- influencing and facilitating the involvement of system leaders.
- rating our progress against national and international FTC targets and ambitions.
